

Coordinator report May 13, 2019

Great to have our Finance Committee on board for the Town meeting. For the follow-up Special Town Meeting there is, being a special, a fourteen-day notice requirement. This means we are on a tighter schedule than you may expect.

I recommend the board further assert Town's disapproval of super contract with a letter to DOR which I can prepare at your direction. Please review Jim's numbers regarding this contract cost and cost to vacate. Doc and I have spoken about he and I getting a meeting with DESE.

I'll be meeting with MIAA this week to review the town's insurance lines.

My understanding is that Robert Day will do the work for Memorial Day flag placement and he specifically does not want to be appointed Flag agent. We need to recruit a flag agent.

The Nonresident home rule voting proposal vote and request for special legislation needs to be conveyed by letter from the town clerk. If the board would like I can write a letter from the Selectboard covering the TC letter.

I fumbled and board clerk Dexter needs to sign a DCR form that says what we did at the last meeting, the board announced the DCR land acquisition intent. We did sign the waiver. A remedial signature is needed on the representation that we gave public notice.

I am officially medically cleared on the hip replacement surgery with only lingering precaution being no running; and with pain being my guide. Is good to be back.
